

Financial Director £50k • Manchester

There are lies, damned lies, and recruitment adverts. But this one's the rare exception. Because changing lives is our purpose: we're specialists, experts, world-beaters at it, and this job makes it happen. ■ The Big Life group – made up of five businesses and three charities – supports thousands of socially excluded and vulnerable people across the North of England, through targeted and effective projects. From producing The Big Issue in the North magazine, to providing primary health care, training opportunities and family outreach, our work is about making the biggest difference we can. ■ On one hand, this role is simple: we want you to drive our financial performance in the way which best supports our aims. On the other, ours is a complex organisation in a volatile and challenging sector; people as passionate as we are can be uncompromising, and the reality of the work we do is that some decisions are pretty tough. But when you hear the success stories, the effort's always worth while. ■ To find out more, call David Gooda on **0845 862 0015**, or visit **www.thebiglifegroup.com** and follow the links. Closing date: noon, 14 November 2011. Interviews: 17 November 2011.

Today, when you
CHANGE JOB,
you also get to
CHANGE LIVES.
